### Topics Discussed:

- Reviewed any outstanding tasks or revisions needed to finalize documentation
- Analyzed the key components of both backend and frontend code for any necessary enhancements.
- Ensure clear understanding of tasks and deadlines.

### Decisions Made:

- Due to incomplete component and deployment diagrams, these tasks have been reassigned
- Emphasized the importance of thorough checks and completing any necessary revisions before the final submission.
- Prioritize tasks based on their impact on the overall project completion and documentation quality.

### Tasks Assigned:

- Ardit: Component diagrams, updates and fix bugs on controllers and services
- Megi: Deployment diagrams, crafted the foundational structure and aesthetic appeal of web pages: home and on-ride for driver, my account
- Elis: develop admin service in backend
- Kejsi: work on ride and drive information pages in frontend
